

Metahamster

Whitepaper

v 1.0

1. Introduction

Metahamster (\$MHAM) is a token launched on Binance Smart Chain with automatic liquidity pool growth and holder rewards through transaction taxation. This is to bring a community together on the mission to Metaverse. Metahamster was created with the aim of building the metaverse which will bring together customers, and product owners. The metaverse will be created where the product owners can create their own stores and advertising campaigns, and customers can access these campaigns and products. A social platform, play-to-earn NFT games, and rewards will also be created for customers to spend time in this metaverse.

2. Features

Re-distribution to holders

4% BNB is redistributed to all existing Metahamster holders who hold at least 75,000,000,000 \$MHAM tokens.

Auto allocation to Liquidity Pool

4% of each transaction will be allocated into the Liquidity pool on the PancakeSwap.

Massive Marketing

4% BNB of each transaction will be assigned to the marketing wallet which will be used for the future development of the project.

Limited Supply

The maximum token supply will only be 10,000,000,000,000,000 \$MHAM.

Manual Burn

Metahamster tokens that are unlocked within certain periods of 50% of the supply will be burned for the ecosystem.

Security Features

No pre-sale has been made in Metahamster. Initial MHAM-BNB-LP locked for 1 year. AUDIT confirmation has been taken.

3. Tokenomics

Token Name: Metahamster

Symbol: \$MHAM

Decimals: 18

Contract Address: 0x9428f4cD18896eDa03633429c3f52e5244504D14

Total Supply: 10,000,000,000,000,000

Liquidity: %50

Manual Burn: %50

No Developer Wallet

Taxes:

%12 for buying

%15 for selling

Max Wallet: %2

Max Transaction:

%2 for buying

%1 for selling

5. Projects

P2E Games

Developing games like Mazes of MHAM where players have MHAM to get in the labyrinth and win hidden NFTs around the maze and who can finish the maze gets a special prize, there will be some traps in the maze to capture the hamsters, the game is developing under the Unity engine.

NFTs

3 types of NFTs. Gold ones will be distributed to our top 500 holders. Silver ones will be distributed between the top 500-1000 holders. Bronze ones will be distributed between the top 1000-2000 holders. It will be announced when we reached 5000 holders. People with these NFTs will be privileged in the metaverse.

Metaverse

A metaverse city including buildings that will consist of virtual stores and advertising campaigns. This is to bring together customers, and project owners. A decentralized organization that can be accessed by individuals connected to the Internet anywhere in the world with their personal wallets.

Events

Meet our community and join the events. It will be the world's largest metaverse event which individual holders will meet in the specified locations before. According to the agreements, companies will be able to organize their own events in these locations.

Rewards

Explore hidden metaverse rewards. These rewards can be getting a discount on the stores which in the metaverse, MHAM token prizes, special NFTs, etc. Also, there will be leaderboards on the games and winners get special rewards.
